ABOUT ME

Student of Computer Science at the University of the People and passionate about technology.

Currently focused on Frontend Development with knowledge in HTML5, CSS3, JavaScript and React.js (learning in progress).

Aiming to evolve into a Fullstack Developer, combining frontend and backend skills.

Motivated by continuous learning, teamwork and the desire to contribute meaningfully to innovative projects.

WORK EXPERIENCE

Self-directed projects and continuous learning Lisboa, Portugal

Software developer Experience

12/2024 – Current

- Developed multiple personal projects using HTML5, CSS3, and JavaScript, including interactive web applications and responsive websites.
- Gained practical experience with React.js by building user interfaces with component-based architecture and managing state effectively.
- Started learning TypeScript to enhance code quality and maintainability in frontend development.
- Implemented REST APIs integration and worked with asynchronous JavaScript (Promises, async/await) in projects.
- Actively practicing version control with Git and collaborating on small open-source projects and freelancing tasks to improve real-world coding skills.
- Continuously expanding knowledge through online courses and hands-on coding challenges to bridge theory and practical application.

Various food and retail companies Rio de Janeiro, Brazil

General Clerk / Manager Assistant

2015 – 2024

- Customer service, cashier operations and stock replenishment.
- Support to teams in routine activities and product organization.
- Experience in high-pressure environments, with a focus on quality and customer satisfaction.
- Development of interpersonal skills, responsibility and teamwork.
